

**November 8th 1989**

**Meeting called at 10:00 am at University of Massachusetts at Amherst, MA.**

A presentation was made by Chuck Cullum and Ed Minishak of Dugmore and Duncan Company, and by Joe Garbis and Mary Garrison of the Sargent Company.

An in-depth discussion was given on Sargent cylinders, keyways and master keying. Included in the seminar was how Sargent cylinders were loaded (Master, Bottom, and Top Pins) and the various possibilities of master keying.

Later there was a presentation on various items in Sargent's line such as: Bored Locks, Mortise Locks, Cylinders and Blanks, Door Closers, Alarm and Exit Devices, and much more.

After the presentations, a short ILA business meeting was held.

The ILA is grateful for the fine presentations and each attendee received a Sargent Keying Manual and Binder with the complete Sargent Line of Products.

Many thanks to Chuck Cullum, Ed Minishak, Joe Garbis, and Marty Garrison.

Also, thanks to our hosts Charlie Bray and Larry Holmes.
